

AGENTS & OPERATIONS

Meridian Intelligence

Operational intelligence with the assumptions left in.

Turns operational records into reviewable measures, forecasts and monitors, with data quality, denominators and assumptions visible so leaders can trust the number before acting on it.

THE PROBLEM

Dashboards hide missing data and changing definitions.

Forecasts arrive as a single confident line.

AI summaries drift away from the underlying data.

WHAT IT DOES

Dataset review

Preview imports, reconcile accepted and skipped rows.

Measures and reports

Counts, sums and averages with clear denominators.

Transparent forecasting

Simple models compared against back-tests, bounded horizons.

Monitors

Watch conditions and alert with the evidence attached.

Data quality

Missingness, duplicates and type checks shown with results.

Tied narrative

AI summaries stay linked to the figures they describe.

HOW IT WORKS

01

Acquire

Authorised feed, projection or upload.

02

Validate

Mapping, types, dates, duplicates.

03

Aggregate

Measure with period and denominator.

04

Estimate

Forecast or evaluate a monitor.

05

Review

Owner interprets with assumptions.

CONTROL BUILT IN

- ✓ Quality warnings travel with the data
- ✓ Back-tests shown beside forecasts
- ✓ Named owner for each measure
- ✓ Summaries cite their figures

Runs on the Reimea control layer

Every Reimea product shares one control layer, so a new agent arrives already governed. Deployed in your own cloud environment, under your keys.

● Identity & access

● Policy per task

● One AI gateway

● Named human approval

● Tamper-evident record

● Controlled learning

WHO IT IS FOR

Service managers, analysts and operational leaders reviewing activity, capacity, performance and data quality.

MEASURE THE PILOT

Report preparation time

Forecast error vs baseline

Data-quality issues caught

Decisions with documented evidence

Baselines and targets are agreed with you in the Reimea pilot scorecard before the pilot starts.

Current status. Meridian product module. Deployment, integrations and assurance are validated with each customer during discovery and pilot.

WORKS WELL WITH

Meridian Outcomes & Prevention

Care coordination

Meridian Neighbourhood Capacity

Care coordination

Meridian Guardian

Agents & operations

**Start with one workflow.
Make the decision measurable.**

A 45-minute briefing covers your workflow, the product and its limits, and a sensible next step. Bring the people who own the decision.
