

CLINICAL EDITION

Meridian Wellness

Guided reflection, with clear limits and a route to real help.

A bounded guided-reflection experience: named check-in sessions, optional model assistance and a human-support boundary that is always visible. It is not therapy and does not claim to be.

THE PROBLEM

Open-ended wellbeing chatbots overreach.

Unsafe model replies are hard to rule out.

People need a clear way to stop and reach a person.

WHAT IT DOES

Defined sessions

Check-in, grounding pause, worry and wind-down reflection.

Curated prompts

Openers and continuations written and reviewed.

Optional model reply

Short reflective replies with curated fallback.

Support boundary

Urgent-language handling and blocked response patterns.

User control

Pause or leave at any point.

Guardian oversight

Sessions reviewable by a person.

HOW IT WORKS

01

Choose

Pick a bounded session.

02

Begin

Curated opener; user controls pace.

03

Respond

Curated or model-assisted reply.

04

Constrain

Apply urgent-language checks.

05

Finish

Pause, leave or save explicitly.

CONTROL BUILT IN

- ✓ Not therapy, stated clearly
- ✓ Urgent help always visible
- ✓ Unsafe response patterns rejected
- ✓ Saving is an explicit choice

Runs on the Reimea control layer

Every Reimea product shares one control layer, so a new agent arrives already governed. Deployed in your own cloud environment, under your keys.
